

A huge **THANK YOU** to all who participated in interviews for the purposes of being able to share experiences in CRC Screening improvement with peers, stakeholders and our CDC partners: **Dr. Jeff Hostetter** and **Monica Paczkowski**, UND Family Practice; **Mikisha Longie**, Quentin N. Burdick Memorial Health Care Facility; **Dan Beach**, South Central Health Care; and **Amy Burianek**, First Care Health Center.

How do you think offering choice improves CRC screening rates?  
**Responder:**  
[Dan Beach, South Central Health](#)

## Dashboard

**17.9%**

of ND's population age 50-74 is represented in the patients of the Screenshot participating Clinics!

The average 12-month rolling improvement of a Screenshot participating clinic is

**93.26%**

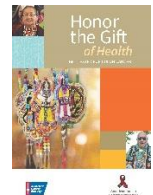

(as of 10/26/22)

## Literature

[Screening for colorectal cancer in people ages 45–49: research gaps, challenges and future directions for research and practice](#). Translational Behavioral Medicine. Oxford Academic. “Although concerns about lowering the screening age are not without merit, we have the opportunity, once again, to shift the epidemiology of a mostly preventable disease.” Hyams, T., et al.

As a valued partner of QHA, you are invited to join us for **Partner Appreciation Day** hosted by CDC's Colorectal Cancer Control Program on **Wednesday, November 2, 2022**, 12:00-4:00 p.m. Register at: <https://crccp.vfairs.com>.

**SAVE THE DATE!**

**Wednesday, November 9, 2022**  
**10:00-10:45 a.m. CT**

**Tribal Communities Peer-to-Peer Event**  
**Pulling Data from I-care for Provider Assessment and Feedback**, Allison Slaubaugh, RN, Spirit Lake Health Center
